

# C2C

Classroom and / or Field excursions  
An environmental educational experience  
for students Year 1 to 10

The educators at Gecko offer  
Gold Coast Schools

## Catchment to Coast

A nature based learning experience delivered by  
qualified and experienced GeckoEd Educators:

- *Informing* about our environment
- *Inspiring* appreciation within nature
- *Involving* students for the environment.

A program to meet teacher requirements for  
Essential Learnings and curricula in science,  
biology, Study of Society and the Environment,  
geography or others as requested.

Sponsored by:  
Federal Government's  
*Caring for Our Country* grant

CARING  
FOR  
OUR  
COUNTRY

We all live in a catchment

What I do changes the world

# Catchment & Coast

## Interactive learning experiences

Developing stewardship and responsibility  
for care, protection and management of  
catchment and coastal environments.

### Stewardship

All programs feature opportunities  
for students to engage in practical  
stewardship activities, such as:

- Revegetation
- Weeding
- Litter analysis
- Data collection
- Ecological Concepts

### Eco-Explorers

Out-of-school-hours adventure based exploration  
programs for children, 5-18 years, in the Currumbin  
Creek area. Creative arts, games and nature based  
activities are used to raise awareness and also  
contribute to the care of our natural areas.

### Context & Framework

Students investigate local environments,  
natural systems, past and present  
human use and impacts.  
Students explore a range  
of responses, making connections  
to their own experiences whilst  
developing knowledge and  
understanding.

Practical earth caring education - worth sharing
